

OUR PRODUCT SUITES

Serving clients who work across the entire derivatives spectrum

AcadiaPlus

AcadiaPlus connects you to a global community dedicated to margin, collateral and risk management. You gain access to best in class apps across the trade lifecycle within a scalable, interoperable infrastructure.

Agreements Suite

Acadia's Agreements Suite is a centralized, digitized and single source representation of your legal and margin agreements. We also offer services to help understand and act upon the impact of any CSA contractual changes.

[Learn More >](#)

Risk Suite

Acadia's Risk Suite provides firms with a toolkit that helps them to comply with Uncleared Margin Rules. We fast-track your compliance journey, maximizing cost and operational efficiencies.

[Learn More >](#)

Workflow Suite

Acadia's Workflow Suite dramatically improves your STP and reduces costly disputes. We provide an integrated margin & collateral process across asset types and workflows, allowing you to benefit from a more data-driven approach to risk management.

Data Suite

Data Suite

Acadia's Data Suite delivers a set of solutions that enable re-deployment of your existing data in AcadiaPlus for industry reporting, benchmark and peer comparisons as well as providing a gateway to some partner services via our Access model.
