TRANSFORM YOUR AGREEMENTS INTO ORGANIZED DATA

## Digitization & Contract Analysis

BOOK A MEETING >

PUT DATA IN THE DRIVING SEAT

### Take advantage of centralized and fully digitized data

Access a range of digitization and contract analysis providers to transform your agreements into structured data, making it easy to search for required amendments. Your data is stored and organized centrally in Acadia's Agreement Manager, instantly available to your internal upstream or downstream systems and other AcadiaPlus services.

AcadiaPlus fully integrates LIKEZERO and Genpact's Collateral Agreement and Reference Data Services (CARDS) – best of breed providers that can meet your specific needs for digitization and/or contract analysis. We also offer access to other digitization providers via **AcadiaPlus Access** unique integration layer.

Document digitization can be leveraged for both existing and new agreements, ensuring that internal systems record a single digital interpretation of the underlying document.

Contract Analysis enables a standard, automated remediation process across any of your legal documentation and is ideal for when you just need to analyze specific clauses.

We work with firms across a number of industry use cases including Uncleared Margin Rules, IBOR Transition, Negative Interest, Brexit and Force Majeure.
