

A DIGITAL ARCHIVE FOR YOUR LEGAL AGREEMENTS

## Agreement Manager

[BOOK A MEETING](#) >

**Unlock legal and operational data to enhance front to back processes.**

Agreement Manager enables fast, scalable consolidation and affirmation of legal and operational data via one cost effective interface. It provides an authoritative record of collateral agreements through a single workflow. Created by the industry, for the industry, Agreement Manager significantly reduces the time and effort required to maintain an efficient repository of agreement data.

## Revolutionizing collateral agreement workflow

[DOWNLOAD PDF](#)

It can be complex, time consuming and costly to negotiate, digitize, record, generate and govern collateral agreement data. Agreement Manager significantly reduces the time and effort required to

Share this

accurately maintain an efficient repository of agreement data by introducing a standard shared workflow, allowing you to reconcile agreement data with your counterparty to create a golden source of data.

Once agreements are in a digitized format, data management is simplified and more streamlined. You can improve the speed that data flows into your collateral systems, enable greater accuracy and bilateral confirmed documents from a single source and eliminate disputes due to mismatched clauses or amendments.
