Collateral Manager

[BOOK A MEETING](#)

Revolutionizing Collateral Management

Collateral Manager reduces risk and costs for banks, buy-side institutions, outsourcers, and corporates. It is integrated with our margin management services, generating significant efficiency savings and offering a seamless experience for firms managing both variation and regulatory initial margin.

Collateral Management done better

[DOWNLOAD PDF ▾](#)

Collateral Manager is our Cloud-based, single instance collateral management platform built to drive efficiency and reduce risks and costs for financial institutions. With a range of core features, your team can benefit from having all your collateral data in one place. All instruments, asset classes, cleared and non-cleared are supported, together with workflows covering automated
