

ENABLING INTELLIGENT AUTOMATION OF MANUAL
MARGIN CALL MESSAGES

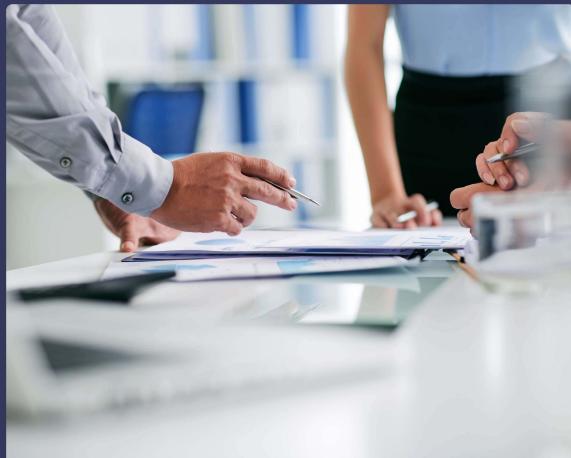

Relay

[BOOK A MEETING](#)

SPONSOR YOUR CLIENTS

For firms aiming for zero-touch margin messaging

Acadia's Relay service enables automation of email, spreadsheet and PDF to exchange margin calls. It is designed to facilitate your straight-through-processing of margin calls for counterparties who have not yet joined Acadia's margin community.

Relay provides a low-cost solution to move all of your margin call processing to an exceptions only, low touch environment – across your entire product range including OTC-Bilateral, OTC-Cleared, Repo, TBA and Exchange Traded Derivatives.

By sponsoring your clients on to the Margin Manager application, your firm can free up resources and significantly improve efficiency, client servicing and reduce error rates. The Relay sponsored approach is the

fastest way to streamline your margin process.

KEY BENEFITS

Gain 100% straight through processing across all counterparties

1. Leverage the latest automation technology

Acadia intelligent data mapping technology expedites the translation of emails, PDFs and spreadsheets into a Margin Manager electronic message

2. Seamless and standardized workflow

Using the Relay model, manual clients will be integrated into your existing automated margin workflow

3. Eliminate errors

Removing manual margin calls will result in fewer processing errors

4. Enhanced client service

Automation increases margin response times and accuracy, resulting in improved client service and greater operational efficiency
