### Discover how changes in CSA parameters drive valuation changes

Fair value changes resulting from contractual renegotiations can amount to millions of dollars. Our experts help you to understand the value drivers of CSA valuation, providing a competitive advantage during renegotiations.

## CSA Valuation made simple

The CSA Valuation Service analyzes the potential financial impact of contractual changes in CSAs for the relevant underlying portfolios. Client CSAs and trade data is taken as an input and generates an impact analysis on netting set valuations, exposures and key valuation adjustments.
